45th Annual Yearling Bull Sale
JANUARY 23 2023
 1 PM AT THE RANCH, ROCKHAM, SD

Selling
 219 Yearling Bulls • 85 Commercial Bred Heifers
 200 Commercial Heifer Calves

Welcome to the 45th Annual Edgar Brothers bull sale! We would like to thank all of our customers who have supported us and put their trust in our program. We do not take that lightly. Our family has been raising Reg. Angus Cattle for nearly 70 years. Over that many years things have changed drastically in the world, but the one thing that has stayed the same is our commitment to the cattlemen and women that make their living the same way we do. Our goal is to raise efficient cattle that work in a real world environment. We strive to make low maintenance cattle that perform on grass and in the feedlot. We feel our cattle are designed for the commercial cow-calf producer, we look for cattle who are fertile, good footed and have good bags. Once again, we will be offering more bulls than ever before. The demand for EB genetics is growing and we are doing our best to meet it. However, we will not sacrifice quality just because we can sell more animals. This offering is as good as any we have ever offered. We will be offering an outstanding set of bred heifers as well as a very nice set of heifer calves. All females will need to go to their new owners the week of the sale. Bulls will be kept at no charge until April 1st or deduct \$100 if taken home within one week of the sale. Take advantage of our volume discount starting at 3 bulls @ 3% up to 5 bulls @ 5%. We will be retaining 1/3 semen interest in all bulls unless agreed upon prior to the sale. If you ever have any issues with your purchases do not hesitate to contact us. Thanks and hope to see you sale day.

Suitable for Heifers. This is one of the most exciting heifer bulls to sell out of our first calf crop by Commodore. He is a very maternal made type bull who will calve easy and grow, he is in the top 1% of the breed for calving ease and top 2% for WW and YW! He is the biggest curve bender in the sale. We would like to use this bull AI on some big commercial heifer projects as well in our registered herd. Out of a first calf heifer.

B0104 is a unique individual from start to finish, he is as well made as any. If you study his EPD profile you will see just how special he is. Very few bulls in the Angus breed combine moderate birth weight with over 100 lbs of WW EPD. He is out of a first calf heifer and weaned at 800 lbs and nearly 1500 lbs at YW. Another big time herd bull!
